SUMMARY

Test Automation Engineer with 5+ years of experience across Web, iOS, Android, and API testing. Expert in designing scalable automation frameworks, increasing test coverage, reducing regression time, and improving product quality. Strong hands-on experience with Python, TypeScript, Selenium, API automation, CI/CD, and Linux. Proven ability to lead testing strategy, mentor teams, and drive high-quality releases in fast-paced environments

EXPERIENCE

Test Automation Engineer -- Data Intelligence Team

Shift4 (Remote) | Sept 2023 – Present

- Built automated and maintained end-to-end Web and API tests using Eggplant Functional and Typescript
- Managed remote hardware devices and tooling for automation workflows
- Led testing strategy and planning for releases on two separate teams
- Oversaw automation lab operations across the Las Vegas office
- Improved test efficiency by optimizing data setups, environment usage, and test stability.
- Mentored manual QA interested in making the transition to automation

QA Automation Engineer — SpotOn (Remote) | Sept 2021 – Sept 2023

- Reduced manual regression time from 2 weeks to 2 hours through automation
- Automated 500+ test cases using Python & Selenium
- Created detailed QA onboarding guides and process documentation
- Reviewed code in Bitbucket; mentored junior QA engineers in Python test automation
- Led weekly company-wide automation meetings to drive consistency and best practices
- Collaborated with development teams to improve testability and reduce defect leakage

Jr. QA Engineer — Appetize (Los Angeles, CA) | Nov 2019 – Sept 2021

- Tested third-party payment APIs using Postman and Python automation
- Performed regression, smoke, exploratory, and mobile (Android) testing
- Collaborated with Android developers to diagnose mobile defects and verify fixes
- Managed 2000+ test cases in TestRail and streamlined test suite structure
- Increased regression execution speed by 1 full day through improved test organization
- Promoted to Automation after demonstrating Python scripting proficiency

TECHNICAL SKILLS

Languages & Automation:

Python, TypeScript, Eggplant, Selenium, Webdriver IO, Appium, Git, Postman, GitLab, Jenkins, Charles Proxy, GitLab

DevOps & Tools:

CI/CD (Jenkins, Gitlab, Travis CI), Bitbucket, Jira, SQL, TestRail, Linux (CLI & scripting)

Other:

HTML/CSS, Chrome DevTools, Android Studio, API/Services testing, Codex, ChatGPT, CoPilot, Claude

CERTIFICATIONS

- Python Bootcamp (Zero to Hero)
- Selenium Python Automation
- APIs & Web Services Foundations

EDUCATION

University of California, Irvine

B.A. in Urban Studies (Environmental Sustainability)
